

FEA Growers Group Communication

Important Please Read

24 February 2011

Adjournment of Grower meetings on Monday 28 February 2011 – In the interests of Growers being fully informed with sufficient time for decision making.

We refer to the Notice of Meetings to Growers of a meeting of each FEA Project (1999 to 2008 inclusive) to consider the Black Tree Proposal scheduled for Monday, 28 February 2011 at Professional Investment Services Pty Ltd Level 6, 2 Elizabeth Plaza, North Sydney, NSW.

The FEAGG executive members (below) who have called the meetings have determined that an adjournment is necessary in order to allow Growers more time to consider the Explanatory Memorandum.

Blacktree have carefully prepared the proposal with appropriate consultation with the FEAGG and key stakeholders. We are informed the detailed explanatory memorandums are ready to be forwarded to Growers now.

We are of the firm belief the Blacktree Proposals should only be considered by Growers, when all relevant information is available to Growers. Growers must then have sufficient time to read and digest the contents of the Proposals and make any reasonable enquiry.

The intention is to adjourn the Meeting until Monday 21 March 2011 at the same time and place as the original meeting notices.
